30+ YEARS

Technology

Project experience

YOUR TRUSTED TECHNOLOGY PARTNER

A technology partner with a long-term perspective

SYMED INTERNATIONAL supports organisations with the design, supply and deployment of reliable technology environments.

With more than 30 years of experience, we combine product expertise, sourcing capabilities and hands-on project support to meet the needs of businesses across multiple sectors.

30+ years

Experience across IT and communications.

End-to-end

From equipment sourcing to deployment.

Multi-vendor

Solutions from leading technology brands.

International

A business approach built for global projects.

WHAT WE DO

Our mission

Make technology simpler, more reliable and valuable for every Customer

01 Understand

Assess business needs, technical constraints and project objectives.

02 Design

Build a fit-for-purpose solution using proven technologies.

03 Deliver

Coordinate supply, integration, installation and commissioning.

04 Support

Provide guidance, documentation and ongoing assistance.

OUR EXPERTISE

A comprehensive technology portfolio

IT INFRASTRUCTURE

Servers, workstations, compute platforms and enterprise systems.

NETWORKING

Switching, routing, wireless connectivity and network security.

STORAGE & BACKUP

Enterprise storage, data protection and backup infrastructure.

POWER PROTECTION

UPS systems, power continuity and rack power distribution.

COMMUNICATIONS

Business telephony, IP communications and unified solutions.

DISPLAY & SECURITY

Professional displays, video systems and electronic security.

OUR PARTNERS

A trusted technology ecosystem

We work with recognised manufacturers to deliver reliable, scalable and supportable technology solutions.

OUR SOLUTIONS

Compute & server infrastructure

Enterprise servers

Rack and tower platforms for virtualisation, business applications, databases and critical workloads.

Workstations & endpoints

Professional desktop and workstation solutions designed for productivity, performance and manageability.

Deployment-ready builds

Configuration support covering processors, memory, storage, RAID, networking and accessories.

OUR SOLUTIONS

Networking, storage & data protection

Networking

Ethernet switching • PoE access • Aggregation • Wireless infrastructure • Network connectivity

Enterprise storage

Shared storage • Capacity expansion • Data availability • Virtualisation-ready architectures

Backup & resilience

Backup infrastructure • Recovery planning • Power continuity • Infrastructure lifecycle support

PRODUCT RANGE

APC by Schneider Electric | UPS & power protection

Power continuity solutions to help protect IT equipment, networks and critical business applications.

	**BACK-UPS**	**BX / BE Series**	Desktop PCs, small offices and home-office equipment.
	**EASY UPS**	**BV / SRV Series**	Essential power protection for business and IT environments.
	**SMART-UPS**	**SMT / SMX Series**	Network closets, servers and business-critical devices.
	**SMART-UPS ONLINE**	**SRT Series**	Double-conversion protection for sensitive and critical loads.
	**SYMMETRA**	**PX Series**	Scalable, high-availability power protection for data centres.

Illustrative product families; exact model selection depends on load, runtime, topology and installation requirements.

Communications, Display & Security

1

BUSINESS TELEPHONY

IP telephony, PBX platforms, professional handsets, DECT and hotel communication solutions.

2

PROFESSIONAL DISPLAY

Desktop monitors, large-format displays, digital signage and projection systems.

3

ELECTRONIC SECURITY

Video surveillance, access control and integrated security technologies.

Selected clients & project environments

A selection of organizations featured in the SYMED INTERNATIONAL reference portfolio :

AIRBUS DEFENCE & SPACE

TotalEnergies

eDF

中国移动 China Mobile International

سوناطراك sonatrach

中国中铁 中铁建工集团 CRCEG

OUR COMMITMENT

Why work with SYMED INTERNATIONAL ?

Experience

More than 30 years supporting technology and infrastructure projects.

Practical expertise

Solutions shaped around real operating environments and business priorities.

Choice

Access to a broad ecosystem of recognised manufacturers and product categories.

Project support

Assistance with sourcing, configuration, delivery, installation and guidance.

Let’s build what’s next
